An advertisement for the "Fall Classic" golf tournament. It features a background image of a golf course at sunset. A yellow starburst graphic in the top left corner contains the text "\$600 EARLY BIRD FOURSOME PRICE \$800 AFTER AUG 1". The logo for the "Fall Classic" is prominently displayed in the center, featuring a golf ball with the Boston Fire Department Relief Fund logo on it. Below the logo, the text reads "MON, SEPTEMBER 28 • GEORGE WRIGHT G.C.".

An advertisement for the "10K Memorial Road Race" by Boston Firefighters Local 718. The background shows a group of runners at the start of a race. The logo for the race is a red and white Maltese cross with the text "BOSTON FIREFIGHTERS 10K Memorial Road Race LOCAL 718". Below the logo, the text reads "SUNDAY, OCTOBER 18 - 9AM FLORIAN HALL - DORCHESTER, MA".

An advertisement for the "Ball &amp; Awards Ceremony of the Boston Fire Department". The background shows a group of firefighters in uniform. The text reads "The 141st Annual Ball &amp; Awards Ceremony of the Boston Fire Department". Below this, it says "OCTOBER 28 • SHERATON HOTEL BOSTON \$100 (Includes cocktail hour, dinner, awards ceremony and live music)".

## TESTIMONIALS

"The scan helped me solve a lot of questions about my health. After going to fires for many years, it let me know there wasn't anything going on in my lungs and heart, which I had worried about for some time. Knowing I was getting half the cost back, made it a really easy decision to get it done now."

"As a member of the Boston Fire Department for the past 30 plus years, I welcomed the opportunity to participate in the Body Scan Initiative. After seeing many of my co-workers develop cancer directly related to the job we do, I felt it was important to have the tests done. Thank you to the BFD Relief Fund for graciously funding 50% toward the cost of the tests. My hope is that every firefighter in Boston and every firefighter in the country has the opportunity to take the body scan testing and stays well."

"With Firefighters developing countless occupational illnesses it's basically a no-brainer that a body scan be done before retirement. And at half the price, every member owes it to their family to be as thoroughly tested as possible. Being a cancer survivor because a surgeon ordered an extra test, I place great value in testing for illnesses before the illnesses test you."
